EXHIBITION TRAILER HIRE FROM TCM

TCM hire a range of Exhibition Trailers, giving you a flexible, cost-effective opportunity to promote your message and maximise sales at high footfall high streets, showgrounds and sporting venues from Cornwall to Scotland.

We deliver direct to site, leaving you more time to concentrate on your customers, and ensuring that your staff can arrive on site to find everything they need already in place.

We don't have complicated key handover procedures and our trailers are designed to be set up and ready to use in less than five minutes.

And, because our prices already include delivery and collection, you can budget for your event or promotion with no unexpected costs. The price you see is the price you pay: no hidden extras.

We offer tables, chairs and leaflet racks included the price, and all our trailers include electric sockets, lighting — even low-wattage heating if required.

To enhance your event or promotion even further we also hire a range of accessories such as silent generators, hot drinks machines etc. We can also help with vinyl graphics or printed foamex boards to help you get your message across.

To find out more contact Lindsey on 01543 255452

SHOWGROUND AND EVENT PROMOTIONS FROM TCM

TCM hire exhibition and merchandising trailers for use at agricultural and county shows, community and trade events and fairs — enabling direct contact with potential customers, helping them to sample or view your products and services.

We deliver direct to the showground or event at the start and collect from site at the end of the hire period. The trailers are designed to be extremely simple to operate, and can be set up and ready to use within five minutes of arrival on site.

Our prices all include delivery and collection so there are no unexpected extra costs and show and event trailers can be equipped with generators to power lighting, heating and visual aids. Alternatively we can provide hook-up leads at no extra cost if a power supply is available on site.

Flatscreen TVs or digital signage can be fitted into many trailers on request and corporate livery/branding can be applied at additional cost.

We also offer modular marquee systems for hire, each single unit measuring 3m x 3m—build the size to suit your pitch.

To find out more contact Lindsey on 01543 255452.

MERCHANDISING TRAILER HIRE FROM TCM

TCM have a number of fully kitted merchandising/retail trailers available to hire on a long or short term basis, all with safety-glass topped retail counters and valuable storage space. The trailer internal walls can be fitted out with high quality slatwall with aluminium trim for displaying goods. On many trailers, the internal layout can be adjusted to meet your needs, with half or full counters.

As with our range of exhibition trailers, we deliver direct to site leaving you to concentrate on your business. We use combination padlocks so that you don't need to meet us on site, and the trailers are designed to be ready to start selling within less than five minutes of your staff arriving at the venue.

And, because our prices already include delivery and collection, you can budget for your event with no unexpected costs. The price you see is the price you pay: no hidden costs.

All our retail trailers include lighting and electric sockets to power cash tills etc and if your site doesn't provide an electric hook-up, we hire silent generators. We can also help with vinyl graphics or printed foamex boards to help you promote your merchandise.

To find out more contact Lindsey on 01543 255452.

CUSTOM-MADE EXHIBITION TRAILERS FROM TCM

In addition to our hire service, TCM also custom-build Exhibition Trailers to specification. Sizes typically range between 4m and 6m in length and are of GRP construction on a 2000kg galvanised chassis.

Our trailer design options include either barn doors and wind-out canopies, or hydraulic canopies with wing panel doors to display promotional material.

Both options can be built with either integrated fold-down steps or clip on steps, charcoal grey carpet or vinyl flooring, and an electric pack including sockets and spot lights.

As we build to your specification, a range of options are available including built-in cupboard space and seating, rear personnel doors, access ramps, wall-mounted LCD screens, kitchen units etc.

For many of our clients, we also offer an after-sales delivery service, moving the customer's

own trailer between locations if they do not have a suitable towing vehicle or driver with a towing license.

Delivery time is usually within 8-10 weeks of order (depending on the specification required).

We are also able to offer finance options.

For further information contact Lindsey on 01543 255452.
